

Employee 3

Backend Developer

Kochi, India • employee3@example.com • +91 90000 00003 • github.com/employee3

PROFESSIONAL SUMMARY

Junior Backend Developer with around 1.5 years of professional experience building web APIs and database-backed applications. Hands-on experience with Node.js, Express.js, Python, PostgreSQL, MongoDB, and basic Docker. Strong interest in backend architecture and API development, with practical exposure to frontend integration. Seeking opportunities to grow into a full-time backend engineering role.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, SQL
Backend	Node.js, Express.js, REST APIs, FastAPI (basic)
Databases	PostgreSQL, MongoDB, MySQL
Frontend	React, HTML, CSS, JavaScript
DevOps	Docker (basic), GitHub Actions (basic), Linux
Tools	Git, Postman, npm, VS Code

PROFESSIONAL EXPERIENCE

Junior Software Developer | WebCraft Systems | 2024–Present

- Developed REST APIs using Node.js and Express.js for customer and order-management features.
- Designed PostgreSQL tables, relationships, queries, and basic database migrations.
- Implemented authentication, request validation, pagination, filtering, and centralized error handling.
- Integrated backend APIs with React interfaces and collaborated with frontend developers during feature development.
- Used Git-based workflows, code reviews, Postman testing, and basic Docker containers during development.

Software Development Intern | AppForge Technologies | 2023–2024

- Assisted in developing Express.js APIs and maintaining existing Node.js services.
- Created reusable React components and connected them to REST endpoints.
- Wrote SQL queries and helped investigate application bugs involving database records and API responses.

SELECTED PROJECTS

Task Management Platform

Built a full-stack task management application using Node.js, Express.js, PostgreSQL, React, and Docker. Implemented user authentication, role-based permissions, task assignment, filtering, and REST APIs.

Expense Tracker API

Developed a Python/FastAPI service for recording and categorizing personal expenses. Added PostgreSQL persistence, input validation, API documentation, and basic automated tests.

EDUCATION

B.Sc. in Computer Science | Mahatma Gandhi University | 2020–2023

CERTIFICATIONS

Node.js Backend Development • PostgreSQL Fundamentals • Docker Essentials
